ENERGY STAR Mortgages

When you buy a Wisconsin ENERGY STAR Home you not only get a more comfortable, durable, safe and energy efficient home, you get a better mortgage - an ENERGY STAR mortgage. Buyers of Wisconsin ENERGY STAR Homes can take advantage of two benefits available only to them through the ENERGY STAR Mortgage program:

Reduced closing costs

ENERGY STAR Mortgage Lenders offer reduced closing costs to buyers of Wisconsin ENERGY STAR Homes.

Flexible mortgage qualification standards

ENERGY STAR Mortgages have more liberal qualifying standards. Why? ENERGY STAR Mortgage Lenders consider the utility bill savings you will realize from living in a Wisconsin ENERGY STAR Home. This annual savings can help you qualify for a slightly larger mortgage.

There are a number of Madison area lenders who offer ENERGY STAR Mortgages. Call one today to make sure you get the right mortgage for your home:
